Notes to Financial Statements

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Legal Organization

The St. Landry Parish Hospital Service District No. 1, ("District") was created by an ordinance of the St. Landry Parish Government. The governing board of the District consists of six members appointed by the Jury and the chief of the medical staff. Because the St. Landry Parish Government appoints the majority of the commissioners of the St. Landry Parish Hospital Service District No. 1, the parish government is considered to have the ability to impose its will on the District and therefore the District is a component unit of the St. Landry Parish Government, which is the financial reporting entity. The accompanying financial statements present information only on the funds maintained by the District and do not present information on the parish government, the general government services provided by that governmental unit, or the other governmental units that comprise the financial reporting entity.

Nature of Business

The District leases real estate to professions and businesses providing healthcare services to the local community.

Proprietary Fund Accounting

The District utilizes the proprietary fund method of accounting whereby revenues and expenses are recognized on the accrual method. Hospital accounting and reporting procedures also conform to the requirements of Louisiana Revised Statute 24:514 and to the guide set forth in the *Louisiana Governmental Audit Guide*, and the *Audit and Accounting Guide - Health Care Organizations*, published by the American Institute of Certified Public Accountants, and standards established by the Governmental Accounting Standards Board (GASB), which is the accepted standard setting body for establishing governmental accounting and financial reporting principles.

Property, Plant and Equipment

Purchased fixed assets are recorded at cost and donated fixed assets, if received, at fair market value on the date of any donation. Depreciation is calculated over estimated useful lives, using the straight-line method. Equipment under capital lease obligations is amortized using the straight-line method over the life of the asset if there is a bargain purchase option or transfer of title. If there is no bargain purchase option or transfer of title, the leased asset is amortized over the lease term. Such amortization is included in depreciation in the financial statements.

Notes to Financial Statements

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Cash and Cash Equivalents

For purposes of the statement of cash flows, the District considers all highly liquid debt instruments with a maturity of three months or less to be cash equivalents.

Income Taxes

The District is a political subdivision of the State of Louisiana and exempt from taxation.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Accounting Standards

Pursuant to Governmental Accounting Standards Board (GASB) Statement No. 20, *Accounting and Financial Reporting for Proprietary Funds and Other Governmental Entities that use Proprietary Fund Accounting*, the District has elected to apply the provisions of all relevant pronouncements of the Financial Accounting Standards Board (FASB).

NOTE 2 CASH AND CASH EQUIVALENTS

Under state laws, the District may deposit funds within a fiscal agent bank organized under the laws of the State of Louisiana, the laws of any other state in the Union, or the laws of the United States. The District may invest in certificates and time deposits of state banks organized under Louisiana law and national banks having principal offices in Louisiana. The District has cash and cash equivalents (book balances) totaling \$282,228 and \$279,994 as of May 31, 2010 and 2009, respectively.

These deposits are stated at cost, which approximates market. Under state laws, these deposits (or the resulting bank balances) must be secured by federal deposit insurance or the pledge of securities owned by the fiscal agent bank. The market value of the pledged securities plus the federal deposit insurance must at all times equal the amount on deposit with the fiscal agent bank. These securities are held in the name of the pledging fiscal agent bank in a holding or custodial bank that is mutually acceptable to both parties. Deposit balances (bank balances) at May 31, 2010 and 2009, totaled \$282,228 and \$279,994, respectively, and were fully secured by federal deposit insurance.
